An aerial photograph showing a proposed pipeline route overlaid on a landscape. The pipeline is represented by a thick, dark grey line that curves across the terrain. The landscape consists of a mix of green fields and brown, cleared areas. A paved road with yellow double lines is visible in the lower-left corner. In the distance, a small cluster of buildings and a white tower are visible against a blue sky with light clouds. The text "ATLANTIC COAST PIPELINE" is overlaid in white, bold, sans-serif font in the center-left of the image.
